

## HOTEL BURNED DOWN

**CAPTAIN J. B. EWEN SUFFERS THE LOSS OF HIS HOSTLERY BY INCENDIARY FIRE.**

**TWO SUSPECTS IMPRISONED**

**THE CRIME CAUSES RENEWED FEAR FOR LIFE AND PROPERTY AT JACKSON.**

Louisville, Ky., June 15.—The City hotel at Jackson, Ky., a three-story building owned by Captain J. B. Ewen, the principal witness against Jett and White, now on trial for the assassination of Lawyer J. B. Marcum, was burned to the ground early Sunday morning. Fifteen guests were in the hotel, but all escaped without injury. There was no insurance on the structure and the hotel, with its furnishings and the effects of the guests, is a total loss. The origin of the fire is unknown, but the belief is general that the fire was of incendiary origin. Captain Ewen had recently built an addition to the hotel. This was just completed and was unoccupied. It was in this part of the hotel that the fire was discovered.

The town of Jackson has no fire department and its citizens were awakened by the firing of pistols and guns and much excitement prevailed. A detachment of militia came on the doublequick from their camp across the river and rendered valuable aid in assisting the guests to escape and preventing the flames from spreading. Captain Ewen has been kept at the camp of the militia since he testified last Monday that he saw Curtiss Jett fire the shot which killed Marcum. Nobody was seen to leave the hotel before the fire broke out. It was only two days ago that Jackson was put under martial law. The fire has caused renewed apprehension.

**Ewen Loses Everything.**  
Mrs. Ewen and her children are poorly clad and lost everything. The hotel and furniture had been insured, but only a week ago Captain Ewen was notified that on account of the threatening conditions, the company had decided to cancel his policy. The house and fixtures were valued at about \$10,000. They were the savings of a lifetime and Ewen and family are now homeless and dependent on the hospitality of the troops in camp. Gray and Jim Haddicks and Jerry Luntz, workmen at the Swann & Jay lumber yard, reported having seen Joe Crawford and Ed Thap, wagoners for the Hargis Bros., come across the bridge and return just before the blaze was discovered, and Major Allen ordered these men arrested. They were taken into the military camp by the soldiers and manacled in the guardhouse.

Gray Haddicks was retained by the provost guard as a witness. Soon the Hargis people were very active and tried to obtain the release of the prisoners on bail of \$3,000 each, but failed.

The burning of Ewen's house fulfills in part the threat made by the man whom Ewen says called at his home last Sunday, week ago, and offered to bribe him by giving him \$5,000 if he would alter his testimony.

The burning of Ewen's property not only has caused renewed fear for both life and property, but also has increased the general doubt of conviction of either of the prisoners.

### ARTHUR BEULE DROWNED.

**Sudden Lurch of a Sailboat Sends a Wisconsin Man Overboard.**

Milwaukee, June 15.—A special to the Sentinel from Madison, Wis., says: Arthur F. Beule of Beaver Dam, a prominent student at the state university and a member of the sailing law class, was drowned while sailing on Lake Mendota Sunday. Arthur Curtis, the football player, and Wallace Benedict, of the Delta Upsilon fraternity, to which Beule belonged, nearly lost their lives in attempting to rescue him. Beule went over from a sudden lurch of the boat. His body has not yet been recovered.

### ACCIDENTALLY KILLED.

**Georgia Doctor Shot Through the Heart by His Son.**

Eastman, Ga., June 15.—Dr. T. J. Buchanan of Eastman, whose brother is a member of the legislature, was shot and instantly killed by his son Ogletree. The father had seized a pistol and threatened to kill his wife and children. The son ran into the room with a pistol in his hand. It is supposed the discharge of the latter's pistol was accidental, the ball passing through the father's heart.

### Americans Participate.

San Juan, Porto Rico, June 15.—The church festival of Corpus Christi was celebrated here Sunday. Five thousand Catholics paraded and there was a great show of Spanish colors. For the first time since the occupation of the island, many Americans participated in the ceremonies.

### Tumbler Works Destroyed.

Greentown, Ind., June 15.—The National tumbler works, located in this town, were destroyed by fire during the day. The loss on building and material amounts to \$150,000.

### APPEALS FOR AID.

**Relief Committee Reviews Situation at Kansas City, Kan.**

Kansas City, June 15.—The relief committee of Kansas City has given out the following.

"In connection with relief for the flood sufferers in Kansas City, Kan., it is very important that the people of the United States should understand that there are two Kansas Cities—Kansas City in Missouri, with about 280,000 people, and Kansas City in Kansas, with over 60,000 people, adjoining the former city on the west and separated from it by the state line; that each city has a separate organization for the relief of its flood sufferers and that in Kansas City, Kan., an area including 23,000 people has been swept by a running flood of from ten to thirty feet in depth, which has swept away over one-third of the houses in this district and almost ruined another third and that in the entire district, the merchandise, household goods and clothing have been either washed away or almost totally ruined by a ten days submersion and a deposit in all buildings of from two to four feet of mud.

"With the falling of the water employment to a large number has been given and conditions thereby much improved. There remain, however, many thousands dependent upon charity for shelter, food, clothing and the most meagre outfit of cooking utensils and furniture. These cannot be supplied without outside aid and unless it is furnished to a large amount, the most dire suffering and widespread sickness and death must result. No more worthy or urgent cause can be presented than that of the flood sufferers of Kansas City, Kan., and we appeal to the generous people of the country to aid in supplying these pressing needs of our stricken people. Money and supplies should be sent to T. B. Gilbert, mayor of Kansas City, Kan."

### KEROSENE EXPLOSION.

**Two Persons Killed and Several Others Injured.**

Milwaukee, June 15.—An explosion, caused by pouring kerosene in a lighted stove at the store and residence of John Brozokowski, 1404 Mitchell street, resulted in the death of two persons, the probable fatal injury of one other and the burning of six more to such a degree as to require the attention of physicians. So great was the force of the explosion that the entire side was blown from the house and two rooms were filled with flames, causing the fire department to work for an hour before the fire was extinguished.

The dead are: Anna Brozokowski, aged nineteen years, and Tony Brozokowski, two years.

Miss Gusto Wolf, twenty years, 641 American street, left side, arm and leg burned; John Brozokowski, shoemaker, forty-nine years; Mrs. Annie Brozokowski, forty-seven years; Lena Brozokowski, thirty years; Nellie Brozokowski, seven years; John Brozokowski, three years; Martha Brozokowski, eleven years, were all seriously injured.

All the injured with probably one exception, Miss Wolf, will recover.

### ONE LIFE LOST.

**Schooner W. B. Thomas Wrecked on Stratton's Island, Me.**

Portland, Me., June 15.—One life was lost by the wrecking of the new five-masted schooner Washington B. Thomas of Thomaston, Me., on Stratton's Island, four miles off Old Orchard, in the gale of Friday night while bound with 4,000 tons of soft coal from Norfolk, Va., for Portland. The wife of Captain William J. Leonard, to whom he was married a year ago, was killed by the immense waves breaking in the cabin. Her body was washed away in the darkness and has not been recovered. Captain Leonard and the crew of thirteen men were rescued Sunday by a volunteer lifesaving crew. One seaman had a leg broken and the captain, engineer and four seamen were badly bruised. The Thomas was broken up and practically is a total loss. Tons of wreckage were washed ashore at Old Orchard.

### WOODMEN TO MEET.

**Most Important Subject to Be Considered Is Readjustment of Rates.**

Indianapolis, Ind., June 15.—The thirteenth national convention of the Modern Woodmen of America will begin here Tuesday morning. Head Consul W. A. Northcott, lieutenant governor of Illinois, presiding. Thirty-three states will be represented.

It is expected there will be 4,000 foresters in camp. Twenty-two hundred tents have been erected and teams have arrived from Wisconsin, Michigan, Iowa, Kansas and Missouri. The city is profusely decorated.

The subject of chief importance to come before the Woodmen's convention will be the readjustment of rates.

### HIT BY A RUNAWAY TRAIN.

**Two Persons Killed and Another Fatally Injured at Kapowsin, Wash.**

Tacoma, Wash., June 15.—As a large number of persons were standing on the tracks of the Tacoma and Eastern, at Kapowsin Saturday evening, a runaway train loaded with logs crashed into them, instantly killing Mr. Voorhees of Tacoma, formerly of Detroit, Mich., and fatally injuring John Bullen, local manager of the Locomotive and Car Wheel company. Mrs. C. F. Forner was so seriously injured that she died within half an hour. The people were observing the work of a train crew and the escaping steam prevented them from hearing the runaway train.

## WILL RULE SERVANS

**ELECTION OF PRINCE KARAGEVITCH AS KING DECIDED UPON.**

**OLD CONSTITUTION REVIVED**

**THE ONE ABOLISHED BY KING ALEXANDER TO BE PUT INTO FORCE AGAIN.**

Belgrade, June 15.—At a conference of senators and deputies held here late Sunday night it was unanimously resolved that the constitution voted by the great national assembly in 1888 should be put into force and that Prince Peter Karagevitch should be unanimously elected king at today's joint meeting of the skupshtina and senate. After the election, a deputation of the assembly will be sent to wait upon Prince Peter and communicate to him the decision of the national assembly.

The Serbian constitution of 1888 was a more liberal one than any granted previously and provided that all taxpaying citizens should become electors, by whose votes the skupshtina was elected. It continued in force until May, 1894, when the late King Alexander, by a coup d'etat, abolished it and restored the illiberal constitution of 1869.

Complete order has prevailed in Belgrade up to 11 o'clock Sunday night and absolute quiet is reported throughout Serbia. The military have been withdrawn from the public of fices and only a few sentries are now guarding the royal palace. Only occasional patrols are seen in the streets which throughout the day have borne an animated appearance, being crowded with officers, ladies and large numbers of students who have arrived from abroad. It is believed, with the object of demonstrating in favor of Prince Peter Karagevitch as king. Some Republican tendencies are noticeable among the students who have studied in France and Switzerland; these latter, however, are quite overshadowed by the opinion of the majority, and there seems to be no doubt that the national assembly will today pronounce in favor of a monarchy and elect Prince Karagevitch. The newspapers continue to point out the impossibility of the establishment of a republic and advocate the election of Prince Karagevitch in order to assure a brighter epoch in Serbian politics.

### Attitude of Reserve.

The foreign diplomats in Belgrade continue to maintain an attitude of strict reserve.

Peter Velimirovitch, one of the oldest and most prominent members of the Radical party and a former minister of state, has been appointed president of the senate in succession to M. Marinkovitch, who has resigned. M. Velimirovitch will take the chair at the joint meeting of the senate and the skupshtina on the occasion of the election of the new king.

After the election of the king today, the skupshtina will draw up a programme of procedure for the new sovereign and will then adjourn until the arrival of the king at Belgrade.

The sovereign will then form a new ministry and dissolve the skupshtina. The provisional government has pardoned all persons imprisoned for political and press offenses and ordered their immediate release. No arrests have occurred, nor have any sentences been passed since the tragic events of last Thursday. The court of cassation and the appeal court suspended their sitting from that time.

Prince Karagevitch, although little is known of him among the people generally here, seems to have caught the public fancy and his election will prove a popular one.

Lieutenant Colonel Millsax Zivancevic of the general staff, committed suicide by shooting himself on Friday. It is understood that the officer took his life because, among the late king's papers was found a letter from him informing the king of the plot against his life. The newspapers, however, attempt to make out the suicide to be the result of money troubles.

The foreign ministry has received satisfactory dispatches from London, Paris, Berlin and Rome, all saying that the governments there have not the slightest intention of intervening in Serbia's internal affairs and expressing the hope that peace and order in the political situation will soon be restored. An official statement of Russia's position has not yet been received, but according to assurances from a reliable source, Russia has no desire to intervene.

Geneva, June 15.—Prince Peter Karagevitch, the newly proclaimed king of Serbia, is in constant receipt of telegrams informing him of the situation in Belgrade. According to his present arrangements he will remain here until notified of the action taken by the skupshtina.

### President Confers With Cromwell.

Washington, June 15.—President Roosevelt sent for William Nelson Cromwell, counsel for the Panama Canal company, and had a half hour's conference with him on the canal situation.

### SAENGERFEST SINGERS.

**Five Thousand of Them Give a Reception Concert.**

Baltimore, June 15.—The formal opening of the twentieth triennial saengerfest of the Northeastern Saengerfest of America took place here Sunday afternoon, with a "reception concert" in the Fifth Armory hall.

The seating capacity of the auditorium of this immense structure is 16,000, and the entire space was occupied, there being 5,000 singers on the stage and 9,000 persons seated on the floor.

The afternoon's concert was mainly a welcome, designated as a greeting from the Baltimore singers to the singing society guests from other cities. The singing was participated in by 2,500 Baltimore singers and 2,500 school children, and the numbers were arranged especially in honor of flag day, Sunday being the 128th anniversary of the adoption of the Stars and Stripes of the American congress. Professor Melamet led the orchestra of 135 pieces, the largest ever heard in Baltimore.

A number of singing societies from other cities have arrived here to participate in the grand prize concerts of Monday and Tuesday and the festivities of Wednesday. Thousands of visitors are already here and it is estimated that there will be an average of 40,000 here until the end of the saengerfest.

Among the distinguished guests who will be present tonight are included President Theodore Roosevelt, who will make an address; the German ambassador, Baron von Sternberg and suite; the Prussian minister of finance, Baron von Rheinbaben and suite of four; Governor John Walter Smith and staff, Admiral H. C. Taylor, Herr von Versen, assistant consul general at Berlin and Mayor M. McLane; officers at Fort McHenry; officers of the United States ships which will be present during the saengerfest; officers of the German gunboat Panther.

Newark, N. J., has been selected for the next saengerfest of the Northern Saengerbund.

### LOCKOUT TO CONTINUE.

**Walking Delegates Receive an Unpleasant Surprise.**

New York, June 15.—The members of the building trades employers' association announced Sunday that not only will the present lockout continue, but also other work will be stopped, thus completely tying up all building work in the city, unless the labor unions shall consent to adopt the plan of arbitration to prevent future strikes, which has been proposed by the employers.

The new condition of affairs came as a thunderbolt to the majority of the walking delegates, who had expected that about 50,000 out of the 120,000 men who had been out of employment since May 4, would be able to resume work Monday morning.

Charles L. Elditz, president of the building trades employers' association, said: "We are responsible for the new order, which will continue until the lockout shall end, and it can be said furthermore that the lockout will be continued until the unions have accepted our plan of arbitration. We have sent notices to contractors and builders, who are members of the association, to make the lockout as complete as possible. This will mean that wherever any work is being done and there is material on hand, the work will go on until the material has been exhausted and then that work shall cease. Under this arrangement work going on will last probably until Wednesday or Thursday, when it will be stopped, and then there will be no further work done until we have come to some understanding with the labor unions of the city. The walking delegates have carried things to such a high stand that we have been compelled to take this action."

### WILL DISSOLVE MERGER.

**Great Northern and Northern Pacific Stock to Be Returned to Owners.**

New York, June 15.—It is stated by the New York American that the Northern Securities company will be voluntarily dissolved and that the stocks of the Great Northern and Northern Pacific Railroad companies will be distributed among the shareholders. In this manner the properties mentioned will be returned to their former owners.

That preparations are being made for the dissolution of the Securities company is declared by the American to have been learned on the highest authority, but officials of the company refuse either to confirm or deny the statement. It is said, however, that the appeal now pending in the United States supreme court will be carried to its conclusion so as to establish the legal status of such companies by the court of last resort.

It is further stated that part of the booty sought by the Rockefeller in their terrific bear campaign, just ended, was stock in the Northern Securities company. This stock was wanted because of the Northern Pacific and Great Northern stock to be secured for it in exchange when the reconstruction takes place.

The Northern Securities company was incorporated in 1901, with a capital of \$400,000,000. Its formation was the outcome of a struggle for control of the Northern Pacific, which precipitated the stock market panic of May 9, 1901.

## HOTEL BURNED DOWN

**CAPTAIN J. B. EWEN SUFFERS THE LOSS OF HIS HOSTLERY BY INCENDIARY FIRE.**

**TWO SUSPECTS IMPRISONED**

**THE CRIME CAUSES RENEWED FEAR FOR LIFE AND PROPERTY AT JACKSON.**

Louisville, Ky., June 15.—The City hotel at Jackson, Ky., a three-story building owned by Captain J. B. Ewen, the principal witness against Jett and White, now on trial for the assassination of Lawyer J. B. Marcum, was burned to the ground early Sunday morning. Fifteen guests were in the hotel, but all escaped without injury. There was no insurance on the structure and the hotel, with its furnishings and the effects of the guests, is a total loss. The origin of the fire is unknown, but the belief is general that the fire was of incendiary origin. Captain Ewen had recently built an addition to the hotel. This was just completed and was unoccupied. It was in this part of the hotel that the fire was discovered.

The town of Jackson has no fire department and its citizens were awakened by the firing of pistols and guns and much excitement prevailed. A detachment of militia came on the doublequick from their camp across the river and rendered valuable aid in assisting the guests to escape and preventing the flames from spreading. Captain Ewen has been kept at the camp of the militia since he testified last Monday that he saw Curtiss Jett fire the shot which killed Marcum. Nobody was seen to leave the hotel before the fire broke out. It was only two days ago that Jackson was put under martial law. The fire has caused renewed apprehension.

**Ewen Loses Everything.**  
Mrs. Ewen and her children are poorly clad and lost everything. The hotel and furniture had been insured, but only a week ago Captain Ewen was notified that on account of the threatening conditions, the company had decided to cancel his policy. The house and fixtures were valued at about \$10,000. They were the savings of a lifetime and Ewen and family are now homeless and dependent on the hospitality of the troops in camp. Gray and Jim Haddicks and Jerry Luntz, workmen at the Swann & Day lumber yard, reported having seen Joe Crawford and Ed Thap, wagoners for the Hargis Bros., come across the bridge and return just before the blaze was discovered, and Major Allen ordered these men arrested. They were taken into the military camp by the soldiers and manacled in the guardhouse.

Gray Haddicks was retained by the provost guard as a witness. Soon the Hargis guard were very active and tried to obtain the release of the prisoners on bail of \$3,000 each, but failed.

The burning of Ewen's house fulfills in part the threat made by the man whom Ewen says called at his home last Sunday, week ago, and offered to bribe him by giving him \$5,000 if he would alter his testimony.

The burning of Ewen's property not only has caused renewed fear for both life and property, but also has increased the general doubt of conviction of either of the prisoners.

## WILL RULE SERVANS

**ELECTION OF PRINCE KARAGEGEVITCH AS KING DECIDED UPON.**

**OLD CONSTITUTION REVIVED**

**THE ONE ABOLISHED BY KING ALEXANDER TO BE PUT INTO FORCE AGAIN.**

Belgrade, June 15.—At a conference of senators and deputies held here late Sunday night it was unanimously resolved that the constitution voted by the great national assembly in 1888 should be put into force and that Prince Peter Karagegevitich should be unanimously elected king at today's joint meeting of the skupshtina and senate. After the election, a deputation of the assembly will be sent to wait upon Prince Peter and communicate to him the decision of the national assembly.

The Serbian constitution of 1888 was a more liberal one than any granted previously and provided that all taxpaying citizens should become electors, by whose votes the skupshtina was elected. It continued in force until May, 1894, when the late King Alexander, by a coup d'etat, abolished it and restored the illiberal constitution of 1869.

Complete order has prevailed in Belgrade up to 11 o'clock Sunday night and absolute quiet is reported throughout Serbia. The military have been withdrawn from the public offices and only a few sentries are now guarding the royal palace. Only occasional patrols are seen in the streets which throughout the day have borne an animated appearance, being crowded with officers, ladies and large numbers of students who have arrived from abroad. It is believed, with the object of demonstrating in favor of Prince Peter Karagegevitich as king. Some Republican tendencies are noticeable among the students who have studied in France and Switzerland; these latter, however, are quite overshadowed by the opinion of the majority, and there seems to be no doubt that the national assembly will today pronounce in favor of a monarchy and elect Prince Karagegevitich. The newspapers continue to point out the impossibility of the establishment of a republic and advocate the election of Prince Karagegevitich in order to assure a brighter epoch in Serbian politics.

## Attitude of Reserve.

The foreign diplomats in Belgrade continue to maintain an attitude of strict reserve.

Peter Velimirovitch, one of the oldest and most prominent members of the Radical party and a former minister of state, has been appointed president of the senate in succession to M. Marinovitch, who has resigned. M. Velimirovitch will take the chair at the joint meeting of the senate and the skupshtina on the occasion of the election of the new king.

After the election of the king today, the skupshtina will draw up a program of procedure for the new sovereign and will then adjourn until the arrival of the king at Belgrade.

The sovereign will then form a new ministry and dissolve the skupshtina. The provisional government has pardoned all persons imprisoned for political and press offenses and ordered their immediate release. No arrests have occurred, nor have any sentences been passed since the tragic events of last Thursday. The court of cassation and the appeal court suspended their sitting from that time.

Prince Karagegevitich, although little is known of him among the people generally here, seems to have caught the public fancy and his election will prove a popular one.

Lieutenant Colonel Millsax Zivancev, of the general staff, committed suicide by shooting himself on Friday. It is understood that the officer took his life because, among the late king's papers was found a letter from him informing the king of the plot against his life. The newspapers, however, attempt to make out the suicide to be the result of money troubles.

The foreign ministry has received satisfactory dispatches from London, Paris, Berlin and Rome, all saying that the governments there have not the slightest intention of intervening in Serbia's internal affairs and expressing the hope that peace and order in the political situation will soon be restored. An official statement of Russia's position has not yet been received, but according to assurances from a reliable source, Russia has no desire to intervene.

Geneva, June 15.—Prince Peter Karagegevitich, the newly proclaimed king of Serbia, is in constant receipt of telegrams informing him of the situation in Belgrade. According to his present arrangements he will remain here until notified of the action taken by the skupshtina.

## President Confers With Cromwell.

Washington, June 15.—President Roosevelt sent for William Nelson Cromwell, counsel for the Panama Canal company, and had a half hour's conference with him on the canal situation.

## SAENGERFEST SINGERS.

**Five Thousand of Them Give a Reception Concert.**

Baltimore, June 15.—The formal opening of the twentieth triennial saengerfest of the Northeastern Saengerfest of America took place here Sunday afternoon, with a "reception concert" in the Fifth Armory hall.

The seating capacity of the auditorium of this immense structure is 16,000, and the entire space was occupied, there being 5,000 singers on the stage and 9,000 persons seated on the floor.

The afternoon's concert was mainly a welcome, designated as a greeting from the Baltimore singers to the singing society guests from other cities. The singing was participated in by 2,500 Baltimore singers and 2,500 school children, and the numbers were arranged especially in honor of flag day, Sunday being the 128th anniversary of the adoption of the Stars and Stripes of the American congress. Professor Melanet led the orchestra of 135 pieces, the largest ever heard in Baltimore.

A number of singing societies from other cities have arrived here to participate in the grand prize concerts of Monday and Tuesday and the festivities of Wednesday. Thousands of visitors are already here and it is estimated that there will be an average of 40,000 here until the end of the saengerfest.

Among the distinguished guests who will be present tonight are included President Theodore Roosevelt, who will make an address; the German ambassador, Baron von Sternberg and suite; the Prussian minister of finance, Baron von Rheinbaben and suite of four; Governor John Walter Smith and staff, Admiral H. C. Taylor, Herr von Versen, assistant consul general at Berlin and Mayor M. McLane; officers at Fort McHenry; officers of the United States ships which will be present during the saengerfest; officers of the German gunboat Panther.

Newark, N. J., has been selected for the next saengerfest of the Northern Saengerbund.

## LOCKOUT TO CONTINUE.

**Walking Delegates Receive an Unpleasant Surprise.**

New York, June 15.—The members of the building trades employers' association announced Sunday that not only will the present lockout continue, but also other work will be stopped, thus completely tying up all building work in the city, unless the labor unions shall consent to adopt the plan of arbitration to prevent future strikes, which has been proposed by the employers.

The new condition of affairs came as a thunderbolt to the majority of the walking delegates, who had expected that about 50,000 out of the 120,000 men who had been out of employment since May 4, would be able to resume work Monday morning.

Charles L. Eldlitz, president of the building trades employers' association, said: "We are responsible for the new order, which will continue until the lockout shall end, and it can be said furthermore that the lockout will be continued until the unions have accepted our plan of arbitration. We have sent notices to contractors and builders, who are members of the association, to make the lockout as complete as possible. This will mean that wherever any work is being done and there is material on hand, the work will go on until the material has been exhausted and then that work shall cease. Under this arrangement work going on will last probably until Wednesday or Thursday, when it will be stopped and then there will be no further work done until we have come to some understanding with the labor unions of the city. The walking delegates have carried things to such a high stand that we have been compelled to take this action."

## WILL DISSOLVE MERGER.

**Great Northern and Northern Pacific Stock to Be Returned to Owners.**

New York, June 15.—It is stated by the New York American that the Northern Securities company will be voluntarily dissolved and that the stocks of the Great Northern and Northern Pacific Railroad companies will be distributed among the shareholders. In this manner the properties mentioned will be returned to their former owners.

That preparations are being made for the dissolution of the Securities company is declared by the American to have been learned on the highest authority, but officials of the company refuse either to confirm or deny the statement. It is said, however, that the appeal now pending in the United States supreme court will be carried to its conclusion so as to establish the legal status of such companies by the court of last resort.

It is further stated that part of the booty sought by the Rockefellerers in their terrific bear campaign, just ended, was stock in the Northern Securities company. This stock was wanted because of the Northern Pacific and Great Northern stock to be secured for it in exchange when the reconstruction takes place.

The Northern Securities company was incorporated in 1901, with a capital of \$400,000,000. Its formation was the outcome of a struggle for control of the Northern Pacific, which precipitated the stock market panic of May 9, 1901.

Milwaukee, June 15.—A Sentinel special from New Lisbon, Wis., says: The entire business portion of the town of Hustler, a village five miles west of here on the Omaha railway, was destroyed by fire Sunday. The total loss is estimated at \$30,000, partly covered by insurance.

## Governor Hunt Returns.

New York, June 15.—Governor William H. Hunt of Porto Rico, arrived on the steamer Ponce. He said there was no truth in the rumor that he would resign. He said that conditions in Porto Rico had vastly improved since the advent of the American regime and that American capital was rapidly developing the industries of the island.

## PREVALENCE OF CATARRH.

Growing Use of Hyomei Will Soon Show a  
Decrease of this Disease.

Statistics show that at least 97 out of every 100 persons in this state are suffering from catarrh in some form. While the disease is one of the most common with which the medical profession has to contend, it also is one of the most dangerous. This is owing to its tendency to affect the bronchial tubes, causing consumption and other diseases of the respiratory organs.

Prior to the discovery of Hyomei, every method of treatment for the cure of catarrh had been found worthless. This can be clearly proven by the weekly statements published in every large city by the Board of Health, showing a great increase in the death rate from diseases of the respiratory organs, and the startling growth in the number of persons afflicted with such troubles.

The discovery of Hyomei and its increased use has already reduced the percentage of persons suffering from catarrh. This wonderful remedy is the simplest and most pleasant of all treatments. Just put a little Hyomei in the pocket inhaler that comes with every outfit, breathe through the inhaler for ten minutes four times a day. Relief will be seen from the first treatment; cure will soon follow. It is the true treatment for diseases of the respiratory organs.

Scientific and medical men recommend it. Leading druggists have so much faith in it that they guarantee a cure or they will refund the money. In this city H. P. Dunn & Co. are selling it upon that plan, so that any of our readers can use Hyomei without its costing them a cent unless it cures. Can there be a fairer way? 13

## Summer Wall Papers.

The prettiest wall papers for bedrooms this summer are the chintz patterns with flower effects, and the cretonne chair cushions and curtains generally match, says Harper's Bazar. There is, too, an attractive wall paper of trellis work design with roses that makes a bowery, summery room and is very popular. The desk furnishings of porcelain should correspond with the cretonne of every bedroom, as also the washstand furnishings.

## MIRACLES BY ELECTRIC AID

Physician's Remarkable Demonstration of the Powers of Science.

In an attempt to show the relationship between science and religion Dr. Alfred Geyser, a well known physician in the Bronx district of New York city, recently gave an electrical séance at his home. His audience consisted of forty members of the Holy Name society of St. Anselm's Roman Catholic church in New York and two priests, Rev. Fathers Ruppert and Germanus, who are members of the Benedictine order.

In his parlor Dr. Geyser had a static battery, with twelve large revolving plates and a lot of other electrical apparatus. He had all the lights turned down, and when the room was in darkness he asked for a volunteer subject.

Thomas McKay stepped forward and was placed on the table by the doctor, who applied the battery. The subject was charged with electricity, and blue flames rose from his body. Dr. Geyser took a small electric brush and demonstrated that he could make blue flames shoot from the man's head, ears and hair as he stood two feet away waving the brush. He then placed the brush to McKay's mouth, causing a flame to dart out.

"And they shall speak many tongues," quoted the doctor, as a babbling noise came from his subject's lips. The doctor emphasized the resemblance of the effects of his experiments to certain wonders and miracles spoken of in the Bible.

"I want to show," said Dr. Geyser, "that many of the wonders God performed may be accomplished today by a good electrician."

Continuing, the demonstrator gave a realistic imitation of thunder and lightning, causing flashes to dart through the room. He used the X rays to prove that man could now see what was invisible and the telephone to prove man was "all hearing."

In all the exhibition lasted for an hour and a half. The doctor said he had invited the priests, who are old friends of his, that they could get material for sermons on the subject. Father Ruppert and Father Germanus, however, told the doctor his experiments, while interesting, had not convinced them that science could duplicate the wonders and miracles of Biblical times.

"God," they added, "performed his miracles in a different way."

## RESOURCES OF ALASKA.

Government Expedition to Go There  
This Summer and Report.

A government expedition to Alaska to report on the resources of that region in other gold bearing fields is the latest project, and the indications are that the start will be made in the early summer. Information received at Washington from experts of the geological survey point to the conclusion that, though there are still many tons of valuable ore deposits not yet uncovered, the supply is not inexhaustible and the excitement over the discoveries of precious metal has done the district a real damage by diverting public attention from the other resources, says the New York Post.

The geologists think, for instance, that they find significant coal and petroleum traces along Cook's inlet. The Tanana river is thought to pass near another gold field not yet opened. This will keep interest alive now that the placer mining at Nome is growing a little less attractive, and so much capital has gone into the Klondike that that field has about reached its maximum of productivity.

No outside help will be accepted by the government scientists on their work for the government, but arrangements are making for the co-operation of a number of professional men of science on general results.

## New System of Electric Photography.

John Henniker Heaton, M. P., who has just returned to London from Italy, says, according to the New York World, that at an observatory near Rome he saw specimens of a new system of electric photography. Clear photographs can be taken of objects at least twenty miles distant, says Mr. Heaton.

Commission of Cardinals Decides to Propose Rev. T. A. Hendrick.

Rome, June 15:—The commission of five cardinals, entrusted with affairs concerning the Philippine islands, has decided to propose to the pope the appointment of Rev. Thomas A. Hendrick of Rochester, N. Y., as bishop of Cebu, Philippines. The vatican will thus have fulfilled its most important promise regarding the Philippine islands, by sending there four American bishops.

Rome, June 15:—The consecrations of Mgr. Rooker, formerly secretary of the apostolic delegation at Washington, as bishop of Jaro, Philippine islands, and of the Rev. Dennis J. Dougherty, formerly of Philadelphia, as bishop of Nueva Segovia, were grand and impressive ceremonies.

## PREVALENCE OF CATARRH.

Growing Use of Hyomei Will Soon Show a Decrease of this Disease.

Statistics show that at least 97 out of every 100 persons in this state are suffering from catarrh in some form. While the disease is one of the most common with which the medical profession has to contend, it also is one of the most dangerous. This is owing to its tendency to affect the bronchial tubes, causing consumption and other diseases of the respiratory organs.

Prior to the discovery of Hyomei, every method of treatment for the cure of catarrh had been found worthless. This can be clearly proven by the weekly statements published in every large city by the Board of Health, showing a great increase in the death rate from diseases of the respiratory organs, and the startling growth in the number of persons afflicted with such troubles. The discovery of Hyomei and its increased use has already reduced the percentage of persons suffering from catarrh. This wonderful remedy is the simplest and most pleasant of all treatments. Just put a little Hyomei in the pocket inhaler that comes with every outfit, breathe through the inhaler for ten minutes four times a day. Relief will be seen from the first treatment; cure will soon follow. It is the true treatment for diseases of the respiratory organs.

Scientific and medical men recommend it. Leading druggists have so much faith in it that they guarantee a cure or they will refund the money. In this city H. P. Dunn & Co. are selling it upon that plan, so that any of our readers can use Hyomei without its costing them a cent unless it cures. Can there be a fairer way? 13

## Summer Wall Papers.

The prettiest wall papers for bedrooms this summer are the chintz patterns with flower effects, and the cretonne chair cushions and curtains generally match, says Harper's Bazar. There is, too, an attractive wall paper of trellis work design with roses that makes a bowery, summery room and is very popular. The desk furnishings of porcelain should correspond with the cretonne of every bedroom, as also the washstand furnishings.

## Watson's Ball Reduced.

Washington, June 15.—In criminal court No. 1 Justice Pritchard reduced the bail in the case of J. M. A. Watson, accused of embezzlement of District funds, from \$30,000 to \$20,000.

## MIRACLES BY ELECTRIC AID

Physician's Remarkable Demonstration of the Powers of Science.

In an attempt to show the relationship between science and religion Dr. Alfred Geyser, a well known physician in the Bronx district of New York city, recently gave an electrical seance at his home. His audience consisted of forty members of the Holy Name society of St. Anselm's Roman Catholic church in New York and two priests, Rev. Fathers Ruppert and Germanus, who are members of the Benedictine order.

In his parlor Dr. Geyser had a static battery, with twelve large revolving plates and a lot of other electrical apparatus. He had all the lights turned down, and when the room was in darkness he asked for a volunteer subject.

Thomas McKay stepped forward and was placed on the table by the doctor, who applied the battery. The subject was charged with electricity, and blue flames rose from his body.

Dr. Geyser took a small electric brush and demonstrated that he could make blue flames shoot from the man's head, ears and hair as he stood two feet away waving the brush. He then placed the brush to McKay's mouth, causing a flame to dart out.

"And they shall speak many tongues," quoted the doctor, as a babbling noise came from his subject's lips. The doctor emphasized the resemblance of the effects of his experiments to certain wonders and miracles spoken of in the Bible.

"I want to show," said Dr. Geyser, "that many of the wonders God performed may be accomplished today by a good electrician."

Continuing, the demonstrator gave a realistic imitation of thunder and lightning, causing flashes to dart through the room. He used the X rays to prove that man could now see what was invisible and the telephone to prove man was "all hearing."

In all the exhibition lasted for an hour and a half. The doctor said he had invited the priests, who are old friends of his, that they could get material for sermons on the subject. Father Ruppert and Father Germanus, however, told the doctor his experiments, while interesting, had not convinced them that science could duplicate the wonders and miracles of Biblical times.

"God," they added, "performed his miracles in a different way."

## RESOURCES OF ALASKA.

Government Expedition to Go There This Summer and Report.

A government expedition to Alaska to report on the resources of that region in other gold bearing fields is the latest project, and the indications are that the start will be made in the early summer. Information received at Washington from experts of the geological survey point to the conclusion that, though there are still many tons of valuable ore deposits not yet uncovered, the supply is not inexhaustible and the excitement over the discoveries of precious metal has done the district a real damage by diverting public attention from the other resources, says the New York Post.

The geologists think, for instance, that they find significant coal and petroleum traces along Cook's inlet. The Tanana river is thought to pass near another gold field not yet opened. This will keep interest alive now that the placer mining at Nome is growing a little less attractive, and so much capital has gone into the Klondike that that field has about reached its maximum of productivity.

No outside help will be accepted by the government scientists on their work for the government, but arrangements are making for the co-operation of a number of professional men of science on general results.

## New System of Electric Photography.

John Henniker Heaton, M. P., who has just returned to London from Italy, says, according to the New York World, that at an observatory near Rome he saw specimens of a new system of electric photography. Clear photographs can be taken of objects at least twenty miles distant, says Mr. Heaton.

## Commission of Cardinals Decides to Propose Rev. T. A. Hendrick.

Rome, June 15.—The commission of five cardinals, entrusted with affairs concerning the Philippine islands, has decided to propose to the pope the appointment of Rev. Thomas A. Hendrick of Rochester, N. Y., as bishop of Cebu, Philippines. The vatican will thus have fulfilled its most important promise regarding the Philippine islands, by sending there four American bishops.

Rome, June 15.—The consecrations of Mgr. Rooker, formerly secretary of the apostolic delegation at Washington, as bishop of Jaro, Philippine islands, and of the Rev. Dennis J. Dougherty, formerly of Philadelphia, as bishop of Nueva Segovia, were grand and impressive ceremonies.

## WAS ARRESTED ON SERIOUS CHARGE

Sheriff Dreger, of Minneapolis,  
Comes to This City After  
J. H. Johnston.

## CHARGED WITH EMBEZZLEMENT

Said to Have Embezzled Money  
From Installment Firm Which  
He Represented.

Sheriff Dreger, of Minneapolis, arrived in the city last night after J. H. Johnston, who was arrested a few days ago by Sheriff Ole Erickson at the instance of the officials in Minneapolis.

Johnston represented the Croy installment house of Minneapolis and made this territory as their salesman. Sometime ago he left this city for Moorhead or Fargo at the time jumping his board bill at the Swanson hotel. He was arrested, therefore, as much at the instance of Landlord Swanson in this city as the Minneapolis parties. He was brought back to this city and Sheriff Erickson wired the Minneapolis officials that he was being detained here. He was taken to Minneapolis this afternoon.

Johnston is a well dressed, good looking young man and had been with the firm for which he worked for a long time. The exact amount of his defalcation had not been learned by the Minneapolis official.

The board bill at the Swanson hotel will be settled by the firm.

## JUST GAVE THE GAME AWAY.

Brainerd Elks' Team Defeated in the Game  
with Aitkin Yesterday Afternoon by  
a Score of 13 to 11.

B. P. O. E. 11: Aitkin 13.  
The boys with the white suits and purple trimmings got trimmed at the Brainerd Athletic park yesterday afternoon by the bunch of ball tossers from Aitkin, who really ought to feel that luck is with them, if they think the number of games won in a season is any object. It was a gift pure and simple, and Aitkin walked off with the thirteen scores in their tussle with no particular amount of glory. Capt. Howe, of the Elks' team, was informed that Dr. Watkins would not be able to pitch the entire game on account of a burned hand, and therefore Attorney Krelwitz, of Aitkin, was put on the slab. Of course "Krel" is a good pitcher, but it was a mistake to put him in against men who have been playing with him for some dozen years and who are all on to his manner and style of pitching. They landed on him for any old thing and in the first four innings had pounded out ten runs, making a bunch of ten hits, two of these being homers. About this time Capt. Howe gave the backup sign, pushed his merry ball tossers into the field again and placed Dr. Watkins in the box. After the fourth inning the doctor dealt out some very warm bunches of physics, and the Aitkinites did not get but one run off him and only two hits in five innings.

The agony commenced with Engbretson up and to the surprise of all he fanned the air, but Jim Murphy swung his willow for a single, stole second and was brought in on Howe's two bagger. Krelwitz struck out, F. J. Murphy and Dr. Watkins drew first on balls. On a wild throw Howe scored, but Peotz flied out to Merrill in right field, retiring the side. It looked pretty good to the Brainerdites in the first part of the first inning. Two men went out in rapid succession, Honnold and Robbers, with two little dinkys to first base which were eaten up by Joe Howe, but the next man up got life on an error.

Williams got a hit and the next man up, Kast, put the ball over the left fence for a homer, bringing in three runs. This ended the score making, O'Neill being caught while trying to steal second. It was about the same story up to the fifth inning, the Aitkinites bunching their hits in great shape and landing on Krelwitz for all kinds of them. Williams was in the box for the Aitkinites during the first five innings. He allowed a whole lot of passes, nine in all, but struck out several men at opportune times. Banderob went in at the sixth inning and the locals did a little better with him, but he fooled them in many instances.

Dr. Watkins played a foxy game after he went in the box and had he been in from the start there would not have been the score getting on the part of the Aitkin men.

The following is the summary of the game:

## RATHVON SAW MILL BURNED SATURDAY

Mill and All Its Contents Destroyed  
at a Loss of About Two  
Thousand Dollars.

## NO INSURANCE WAS CARRIED.

Mr. Rathvon will Commence Work  
on a New Structure to Take  
Place of Old.

There was quite a bad fire at Deerwood on Saturday afternoon late when the saw and planing mill belonging to C. J. Rathvon was totally destroyed by fire.

The mill had a capacity of about 10,000 feet a day and Mr. Rathvon was doing a thriving business. He carried no insurance at all and he figures that his loss will reach about \$2,000.

The origin of the fire was not given in the information obtained from Deerwood, but it is supposed to have caught from the sparks from the smoke stack.

The Deerwood fire department formed a bucket brigade and are said to have rendered good service—the water brought up in buckets being about as effective as the stream the fire boys had here a week ago Sunday.

Heffner and there were forty-five men in uniform, and they looked rather swell in their new regalia. Other members of the company expect to go down later, principally the members of the shooting team.

## WRIT OF HABEAS CORPUS

To Be Applied For in the Case of the  
State Against Mrs. Minnie  
Pietz, of Pillager.

Attorney A. B. Church, of Staples, was in the city this morning looking for Judge McClenahan, and left this afternoon for Grand Rapids. Mr. Church has been retained by Mrs. Minnie Pietz, the woman who was arrested a short time ago charged with the murder of the illegitimate child of her daughter. Attorney Church will apply to the court for a writ of habeas corpus, and will endeavor to have her released from the county jail at Walker, where she is incarcerated awaiting the action of the grand jury.

## IN POLICE COURT.

Patrick McGravy Plead Guilty to Stealing  
Some Chickens—Clyde Miller  
and Willis Robinson in Hoc

Patrick McGravy is the name of an astute individual who blandly plead guilty this morning in the municipal court before Judge Warner to stealing some chickens from near the Renslow laundry. He did not state why he did it, nor did he offer any excuse for his misconduct. He was fined \$5, which he paid.

Eric Temmslund got drunk and obstreperous Saturday night and paid a fine of \$10 in court this morning. Clyde Miller and Willis Robinson are basking these days in the city jail, they have having preferred to do this rather than pay a fine of \$7.40 imposed by the court on the charge of drunkenness. Their time they did not consider much anyway and \$7.40 looked like a big heap to men without meal tickets.

Familiar Features Well Known to  
Hundreds of Brainerd Citizens.

A familiar burden in every home, The burden in a "Bad Back." A lame, a weak or an aching back Tells you of kidney ills, Doan's Kidney Pills will cure you. Here is Brainerd's testimony to prove it.

Mrs. Mose Derocher, of 127 Seventh St. south, says: "Low down in the small part of my back there was a pain very distressing, by spells becoming much worse and causing me discomfort to say the least. My husband bought a box of Doan's Kidney Pills at the nearest drug store and I started taking them. The medicines which I had used failed to help me, but I can truthfully bear witness that Doan's Kidney Pills relieved my backache entirely and corrected a disorder of the kidneys which accompanied the backache." ## MUSIC AND DRAMA.

"RESURRECTION."  
In Tolstoi's great work "Resurrection" which will be seen at the Brainerd theatre on Wednesday night, the great writer and thinker expresses himself as follows:

"Fortunes are acquired always either by violence—the most common way—or by avarice, or by some huge villainy, or by chronic swindling, as in case of trade. The better a man is the more sure is he of losing his wealth, and the worse a man the more sure he is of retaining and increasing his fortune. The common sense of the people says, 'By honest labor one cannot acquire stone palaces,' and 'By labor one becomes not a rich man, but a cripple.' So it was in ancient times, and so it is, even more so now, when the distribution of riches has been accomplished in the most inequitable manner. Even if one allow that, in a primitive society, a temperate and industrious man will acquire more than one who is intemperate and lazy, that is not the case in our present society. The workman who plows another man's land, who buys the indispensable necessities of life at the prices demanded of him, and who labors with instruments not his own, can never acquire wealth, however temperate and industrious he may be. On the other hand, the most profligate and idle man, who creeps into the good places of the government or of wealthy people, or who becomes a usurer, or a factory owner, or a banker, or a wine merchant, or the owner of a house of debauchery, can easily acquire a fortune, as we see in thousands of cases."

No work of recent years has so stirred the literary and reading world as his latest masterpiece, "Resurrection."

Doctor Frank Stuart, oculist, who is fitting up a fine suit of rooms in the Bane block, will confine his practice to the diseases of the eye, ear, throat and nose. He will move into his new quarters about the first of next week. 84

## EXPERIENCED QUITE A SCARE.

The Big Burglar Alarm in the N. P. Bank  
Went Off Saturday Night Bringing  
Officials Down Town.

The officials of the Northern Pacific bank experienced quite a scare on Saturday night, when the big burglar alarm went off about 10:30 o'clock and for several paces about the place it sounded as though the bank building would be blown up.

The alarm brought the officials of the bank down town and Cashier H. D. Treglawny was telephoned. Nothing could be seen about the place that would indicate that anyone had been "trifling" and it is thought perhaps that there was something wrong with the clock which regulates the alarm.

## BASE BALL NUBS

A meeting of the stockholders of the Little Falls Base Ball Association was held Thursday evening and it was decided that hereafter they would not endeavor to put a paid team in the field. During the past few weeks the association has been paying every man in the team a salary and the article of ball put up was not in line with the salary paid. There were five men in the aggregation who did nothing else but play ball, and there were times when some of them did not even do that, judging from the score book. Four men drew salaries of \$40 per month and board, and one drew \$50 per month and board. The local boys, who were really some of the best players in the team, did not get their board but two were paid \$25 per month each, and three \$20 per month each. The salary list amounted to \$550 and \$400 per month. All the bills have been paid in full and the players released. Transcript.

## BASE BALL NUBS

A meeting of the stockholders of the Little Falls Base Ball Association was held Thursday evening and it was decided that hereafter they would not endeavor to put a paid team in the field. During the past few weeks the association has been paying every man in the team a salary and the article of ball put up was not in line with the salary paid. There were five men in the aggregation who did nothing else but play ball, and there were times when some of them did not even do that, judging from the score book. Four men drew salaries of \$40 per month and board, and one drew \$50 per month and board. The local boys, who were really some of the best players in the team, did not get their board but two were paid \$25 per month each, and three \$20 per month each. The salary list amounted to \$350 and \$400 per month. All the bills have been paid in full and the players released.—Transcript.

## JUST GAVE THE GAME AWAY.

Brainerd Elks' Team Defeated in the Game  
with Aitkin Yesterday Afternoon by  
a Score of 13 to 11.

B. P. O. E. 11; Aitkin 13.  
The boys with the white suits and purple trimmings got trimmed at the Brainerd Athletic park yesterday afternoon by the bunch of ball tossers from Aitkin, who really ought to feel that luck is with them, if they think the number of games won in a season is any object. It was a gift pure and simple, and Aitkin walked off with the thirteen scores in their tussle with no particular amount of glory. Capt. Howe, of the Elks' team, was informed that Dr. Watkins would not be able to pitch the entire game on account of a burned hand, and therefore Attorney Krelwitz, of Aitkin, was put on the slab. Of course "Krel" is a good pitcher, but it was a mistake to put him in against men who have been playing with him for some dozen years and who are all on to his manner and style of pitching. They landed on him for any old thing and in the first four innings had pounded out ten runs, making a bunch of ten hits, two of these being homers. About this time Capt. Howe gave the backup sign, pushed his merry ball tossers into the field again and placed Dr. Watkins in the box. After the fourth inning the doctor dealt out some very warm bunches of physics, and the Aitkinites did not get but one run off him and only two hits in five innings.

The agony commenced with Engbretson up and to the surprise of all he fanned the air, but Jim Murphy swung his willow for a single, stole second and was brought in on Howe's two bagger. Krelwitz struck out, F. J. Murphy and Dr. Watkins drew first on balls. On a wild throw Howe scored, but Peotz flew out to Merrill in right field, retiring the side. It looked pretty good to the Brainerdites in the first part of the first inning. Two men went out in rapid succession, Honnold and Robbers, with two little dinkys to first base which were eaten up by Joe Howe, but the next man up got life on an error.

Williams got a hit and the next man up, Kast, put the ball over the left fence for a homer, bringing in three runs. This ended the score making, O'Neill being caught while trying to steal second. It was about the same story up to the fifth inning, the Aitkinites bunching their hits in great shape and landing on Krelwitz for all kinds of them.

Williams was in the box for the Aitkinites during the first five innings. He allowed a whole lot of passes, nine in all, but struck out several men at opportune times. Banderob went in in the sixth inning and the locals did a little better with him, but he fooled them in many instances.

Dr. Watkins played a foxy game after he went in the box and had he been in from the start there would not have been the score getting on the part of the Aitkin men.

The following is the summary of the game:

## RATHVON SAW MILL BURNED SATURDAY

Mill and All Its Contents Destroyed  
at a Loss of About Two  
Thousand Dollars.

## NO INSURANCE WAS CARRIED.

Mr. Rathvon will Commence Work  
on a New Structure to Take  
Place of Old.

There was quite a bad fire at Deerwood on Saturday afternoon late when the saw and planing mill belonging to C. J. Rathvon was totally destroyed by fire.

The mill had a capacity of about 10,000 feet a day and Mr. Rathvon was doing a thriving business. He carried no insurance at all and he figures that his loss will reach about \$2,000.

The origin of the fire was not given in the information obtained from Deerwood, but it is supposed to have caught from the sparks from the smoke stack.

The Deerwood fire department formed a bucket brigade and are said to have rendered good service—the water brought up in buckets being about as effective as the stream the fire boys had here a week ago Sunday.

Company F, N. G. S. M., left last night for Lake City where they will go into camp for ten days. The company was in command of Capt. Heffner and there were forty-five men in uniform, and they looked rather swell in their new regalia. Other members of the company expect to go down later, principally the members of the shooting team.

## WRIT OF HABEAS CORPUS

To Be Applied For in the Case of the  
State Against Mrs. Min-  
nie Pietz, of Pillager.

Attorney A. B. Church, of Staples, was in the city this morning looking for Judge McClenahan, and left this afternoon for Grand Rapids. Mr. Church has been retained by Mrs. Minnie Pietz, the woman who was arrested a short time ago charged with the murder of the illegitimate child of her daughter. Attorney Church will apply to the court for a writ of habeas corpus, and will endeavor to have her released from the county jail at Walker, where she is incarcerated awaiting the action of the grand jury.

## IN POLICE COURT.

Patrick McGravy Plead Guilty to Stealing  
Some Chickens—Clyde Miller  
and Willis Robinson in Hoc

Patrick McGravy is the name of an astute individual who blandly plead guilty this morning in the municipal court before Judge Warner to stealing some chickens from near the Renslow laundry. He did not state why he did it, nor did he offer any excuse for his misconduct. He was fined \$5, which he paid.

Eric Temmslund got drunk and obstreperous Saturday night and paid a fine of \$10 in court this morning.

Clyde Miller and Willis Robinson are basking these days in the city jail, they have having preferred to do this rather than pay a fine of \$7.40 imposed by the court on the charge of drunkenness. Their time they did not consider much anyway and \$7.40 looked like a big heap to men without meal tickets.

Familiar Features Well Known to  
Hundreds of Brainerd Citizens.

A familiar burden in every home. The burden in a "Bad Back." A lame, a weak or an aching back. Tells you of kidney ills. Doan's Kidney Pills will cure you. Here is Brainerd's testimony to prove it.

Mrs. Mose Derocher, of 127 Seventh St. south, says: "Low down in the small part of my back there was a pain very distressing, by spells becoming much worse and causing me discomfort to say the least. My husband bought a box of Doan's Kidney Pills at the nearest drug store and I started taking them. The medicines which I had used failed to help me, but I can truthfully bear witness that Doan's Kidney Pills relieved my backache entirely and corrected a disorder of the kidneys which accompanied the backache." ## MUSIC AND DRAMA.

### "RESURRECTION."

In Tolstoi's great work "Resurrection" which will be seen at the Brainerd theatre on Wednesday night, the great writer and thinker expresses himself as follows:

"Fortunes are acquired always either by violence—the most common way—or by avarice, or by some huge villany, or by chronic swindling, as in case of trade. The better a man is the more sure is he of losing his wealth, and the worse a man the more sure he is of retaining and increasing his fortune. The common sense of the people says, 'By honest labor one cannot acquire stone palaces,' and 'By labor one becomes not a rich man, but a cripple.' So it was in ancient times, and so it is, even more so now, when the distribution of riches has been accomplished in the most inequitable manner. Even if one allow that, in a primitive society, a temperate and industrious man will acquire more than one who is intemperate and lazy, that is not the case in our present society. The workman who plows another man's land, who buys the indispensable necessities of life at the prices demanded of him, and who labors with instruments not his own, can never acquire wealth, however temperate and industrious he may be. On the other hand, the most profligate and idle man, who creeps into the good places of the government or of wealthy people, or who becomes a usurer, or a factory owner, or a banker, or a wine merchant, or the owner of a house of debauchery, can easily acquire a fortune, as we see in thousands of cases."

No work of recent years has so stirred the literary and reading world as his latest masterpiece, "Resurrection."

Doctor Frank Stuart, oculist, who is fitting up a fine suit of rooms in the Bane block, will confine his practice to the diseases of the eye, ear, throat and nose. He will move into his new quarters about the first of next week. 84

## EXPERIENCED QUITE A SCARE.

The Big Burglar Alarm in the N. P. Bank  
Went Off Saturday Night Bringing  
Officials Down Town.

The officials of the Northern Pacific bank experienced quite a scare on Saturday night, when the big burglar alarm went off about 10:30 o'clock and for several paces about the place it sounded as though the bank building would be blown up.

The alarm brought the officials of the bank down town and Cashier H. D. Treglawny was telephoned. Nothing could be seen about the place that would indicate that anyone had been "trifling" and it is thought perhaps that there was something wrong with the clock which regulates the alarm.

## SEVERAL PERSONS INJURED.

Duluth Audience Bombarded With  
Hard Coal.

Duluth, June 15.—A humorous safe-  
blowing scene on the stage of the  
Lycium theater in a play put on by  
the Zig Zag Alley company, was ac-  
companied by serious results for  
about fifteen people in the audience.  
The explosion effect is produced by  
firing a blank shot in charge behind  
the sala, which has no back. The  
doors fly open and the safe robbers  
triumphantly run away with a scuffle  
of hard coal which they find in the  
safe.

The property man fired the blank  
cartridge close to the top of the filled  
scuttle, the doors of the safe flew open  
and a quantity of the coal was driven  
into the audience, with the result that  
seven ladies were injured and about  
as many men.

A panic was narrowly averted, for  
it was at first thought that some of  
the people had been killed. Blood  
flowed from the faces of the injured,  
and they were hustled into the office  
of physicians in the Lycium building.  
Marie McMillan, a popular Duluth  
girl, was prostrated by terror and she  
was removed to a hotel, where she re-  
quired constant medical attention for  
some hours. The others were sent  
home in carriages after their injuries  
had been attended to.

# SHAMROCKS IN PORT

SIR THOMAS LIPTON'S RACERS

ARRIVE SAFE AND SOUND AT  
NEW YORK.

SHOWS SOME GOOD POINTS

NEW CUP CHALLENGER IS FAR

MORE HANDSOME THAN THE  
OLDER BOATS.

New York, June 15.—Safe and sound  
after a rough passage from Gourock,  
Scotland, of sixteen days and twenty-  
two hours, Sir Thomas Lipton's lat-  
est challenger for the America's cup,  
the Shamrock III, is now lying at an-  
chor off Tompkinsville, Staten Island,  
where she arrived at 10:20 Sunday  
morning in company with the steam  
yacht Erin that had towed her most  
of the way across the Atlantic, and  
by the Shamrock I, towed by the  
British tug Cruiser. The 156 men  
which manned the yachts and their  
convoys are all well, and there were  
no accidents to mar the passage.

Between Gourock and Fayal, Azores,  
where the steamers stopped for coal,  
calms and squally weather were en-  
countered. The Erin and her tow be-  
came separated from the Cruiser and  
the Shamrock I before reaching Fayal,  
but they never lost sight of each  
other after leaving there. On June  
12 the yachts were caught in a gale  
from the southeast and while it blew  
very hard and a heavy sea was run-  
ning, very little water was shipped  
and no damage was done.

The tug Charles E. Matthews, in  
charge of H. H. Davies, met the  
yachts at daylight twenty miles east  
of Sandy Hook lightship. Pilots  
were put on board the Erin at sea  
and the Matthews towed the Sham-  
rock III to quarantine, the Shamrock  
I being towed by the Cruiser.

Saluted by Passing Craft.

The yachts passed Sandy Hook light-  
ship soon after 6 o'clock Sunday morn-  
ing. They were saluted by every  
vessel that passed them, all the way  
to quarantine. When they arrived the  
crews of the yachts gave three cheers  
for each other as they stood lined up  
on deck. Both yachts flew the pen-  
nant of the Royal Ulster Yacht club.

The new challenger is a far hand-  
somer craft than either the Sham-  
rock I or II. She looks not unlike the  
Columbia above the water line, and  
her beam seems greater than either  
of those yachts. She tows easily,  
making very little broken water at  
the bow, and leaving a clean wake.  
Her captain, Robert Wringe, says she  
behaved splendidly under all condi-  
tions of weather during the passage  
across the Atlantic. She is rigged as  
a sloop with a short bowsprit and a  
topmast over a short, stout lower  
mast. The Shamrock I has the same  
rig with the addition of a jigger mast  
aft. The latter steers with a tiller,  
and the former with a small wheel.  
At 12:30 o'clock in the morning  
when the Erin was 100 miles east of  
Sandy Hook, the operator of the wire-  
less telegraph system on board the  
Erin succeeded in raising the Coney  
Island station, and Captain Matthews  
sent a message to be cabled to Sir  
Thomas Lipton, notifying him of the  
yachts' safe arrival.

In reply, Sir Thomas expressed de-  
light at the safe arrival of his yachts,  
and also sent his best wishes.

## MYSTERY SHROUDS MURDER.

Aged Wisconsin Woman Found Dead  
Near Her Home.

Grand Rapids, Wis., June 15.—Mys-  
tery shrouds the death of Mrs. Kath-  
erine D. Wood, aged sixty-five years,  
on a farm near Meadow Valley. She  
figured in a divorce suit brought  
against her husband on charges of  
cruel and inhuman treatment last De-  
cember, which she withdrew after the  
trial had begun.

The body of Mrs. Wood was found  
near her home with the skull crushed,  
evidently by a blunt instrument. The  
coroner handed in a verdict of murder.

The woman's husband proved to the  
jury that he was at work on a farm  
three miles away from the scene of  
the crime and no charge has been  
made against him. Mrs. Wood owned

passed in review before the officers  
of the supreme and superior lodges.  
There were 10,000 people in line. The  
column was three miles long and re-  
quired fifty minutes in passing the re-  
viewing stand at the Ryan hotel.

## Alleged Attempt at Murder.

South Haven, Mich., June 15.—Three  
young men, it is alleged, attempted  
to rob and murder Benjamin Franklin  
of Chicago on board the steamer  
Kalamazoo in the middle of Lake  
Michigan. The men were arrested  
and gave the names of J. S. McAssey,  
M. W. Hoyt and E. L. Hammer, and  
their residence Chicago.

## SEVERAL PERSONS INJURED.

Duluth Audience Bombarded With  
Hard Coal.

Duluth, June 15.—A humorous safe-  
blowing scene on the stage of the  
Lyceum theater in a play put on by  
the Zig Zag Alley company, was ac-  
companied by serious results for  
about fifteen people in the audience.  
The explosion effect is produced by  
firing a blank shot in charge behind  
the safe, which has no back. The  
doors fly open and the safe robbers  
triumphantly run away with a scuffle  
of hard coal which they find in the  
safe.

The property man fired the blank  
cartridge close to the top of the filled  
scuttle, the doors of the safe flew open  
and a quantity of the coal was driven  
into the audience, with the result that  
seven ladies were injured and about  
as many men.

A panic was narrowly averted, for  
it was at first thought that some of  
the people had been killed. Blood  
flowed from the faces of the injured,  
and they were hustled into the office  
of the theater treasurer and to offices  
of physicians in the Lyceum building.  
Marie McMillan, a popular Duluth  
girl, was prostrated by terror and she  
was removed to a hotel, where she re-  
quired constant medical attention for  
some hours. The others were sent  
home in carriages after their injuries  
had been attended to.

## TELEGRAPHIC BREVITIES.

The strike of the Chicago hotel em-  
ployes continues unchanged.

During the past twenty-four hours  
the river has fallen one foot at East  
St. Louis.

Louis Rentz was stabbed to death  
at Cleveland, O., by Joseph Sockey,  
his brother-in-law.

The grain and seed warehouse of D.  
S. Gay was burned Sunday at Win-  
chester, Ky. Loss \$100,000.

The flood condition is serious at El  
Paso, Tex. The river continues to  
rise and the water is striking the levee  
with great force.

Mrs. Lettie Quine, president of the  
Women's Foreign Missionary society  
of the Methodist church, died at her  
home in Chicago Sunday.

Ten thousand people Sunday were  
in attendance at the Northwestern  
Bank association at Fond du Lac,  
Wis. Twelve bands participated.

Several persons were injured in  
collisions between Catholics and So-  
cialists in France Sunday. The trou-  
ble arose from Corpus Christi processions.

The first Sunday trading at the  
stock yards in the history of the Kan-  
sas City market was held Sunday,  
all departments being open at the request  
of shippers.

It is said that Chauncey Dewey has  
decided to give his version of the af-  
fair that resulted in the killing of  
several members of the Berry family  
near Colby, Kan., about ten days ago.

# SHAMROCKS IN PORT

SIR THOMAS LIPTON'S RACERS

ARRIVE SAFE AND SOUND AT  
NEW YORK.

SHOWS SOME GOOD POINTS

NEW CUP CHALLENGER IS FAR  
MORE HANDSOME THAN THE  
OLDER BOATS.

New York, June 15.—Safe and sound  
after a rough passage from Gourock,  
Scotland, of sixteen days and twenty-  
two hours, Sir Thomas Lipton's lat-  
est challenger for the America's cup,  
the Shamrock III, is now lying at an-  
chor off Tomkinsville, Staten Island,  
where she arrived at 10:20 Sunday  
morning in company with the steam  
yacht Erin that had towed her most  
of the way across the Atlantic, and  
by the Shamrock I, towed by the  
British tug Cruiser. The 156 men  
which manned the yachts and their  
convoys are all well, and there were  
no accidents to mar the passage.

Between Gourock and Fayal, Azores,  
where the steamers stopped for coal,  
calms and squally weather were en-  
countered. The Erin and her tow be-  
came separated from the Cruiser and  
the Shamrock I before reaching Fayal,  
but they never lost sight of each  
other after leaving there. On June  
12 the yachts were caught in a gale  
from the southeast and while it blew  
very hard and a heavy sea was run-  
ning, very little water was shipped  
and no damage was done.

The tug Charles E. Matthews, in  
charge of H. H. Davies, met the  
yachts at daylight twenty miles east  
of Sandy Hook lightship. Pilots  
were put on board the Erin at sea  
and the Matthews towed the Sham-  
rock III to quarantine, the Shamrock  
I being towed by the Cruiser.

Saluted by Passing Craft.

The yachts passed Sandy Hook light-  
ship soon after 6 o'clock Sunday morn-  
ing. They were saluted by every  
vessel that passed them, all the way  
to quarantine. When they arrived the  
cruisers of the yachts gave three cheers  
for each other as they stood lined up  
on dock. Both yachts flew the pen-  
nant of the Royal Ulster Yacht club.

The new challenger is a far hand-  
somer craft than either the Sham-  
rock I or II. She looks not unlike the  
Columbia above the water line, and  
her beam seems greater than either  
of those yachts. She tows easily,  
making very little broken water at  
the bow, and leaving a clean wake.

Her captain, Robert Wrinque, says  
she behaved splendidly under all con-  
ditions of weather during the passage  
across the Atlantic. She is rigged as  
a sloop with a short bowsprit and a  
topmast over a short, stout lower  
mast. The Shamrock I has the same  
rig with the addition of a jigger mast  
aft. The latter steers with a tiller,  
and the former with a small wheel.

At 12:30 o'clock in the morning  
when the Erin was 100 miles east of  
Sandy Hook, the operator of the wire-  
less telegraph system on board the  
Erin succeeded in raising the Coney  
Island station, and Captain Matthews  
sent a message to be cable to Sir  
Thomas Lipton, notifying him of the  
yachts' safe arrival.

In reply, Sir Thomas expressed de-  
light at the safe arrival of his yachts,  
and also sent his best wishes.

MYSTERY SHROUDS MURDER.

Aged Wisconsin Woman Found Dead

Near Her Home.

Grand Rapids, Wis., June 15.—Mys-  
tery surrounds the death of Mrs. Kath-  
erine D. Wood, aged sixty-five years,  
on a farm near Meadow Valley. She  
figured in a divorce suit brought  
against her husband on charges of  
cruel and inhuman treatment last De-  
cember, which she withdrew after the  
trial had begun.

The body of Mrs. Wood was found
